

“ISO 9001:2015, ISO 14001:2015, and OHSAS 18001 Enterprise Wide Internal Audit”

Client: A leading provider of long term fleet charters and complex subsea operations

Client Challenge	<ul style="list-style-type: none"> • A leading supplier of subsea services in all the major oil and gas production regions around the world had neglected to accomplish their required internal audits of their quality, environmental, and health & safety management programs to the applicable standards • Rapid growth through acquisition without merging the competing management systems • Centralized system documentation was not applicable to subsidiary locations
Boxley Group Action	<ul style="list-style-type: none"> • Developed unique Internal Audit Plan, taking into consideration the results from previous audits, prioritization of strategic business processes, and the important applicable elements of the standards • Conducted an enterprise wide internal audit across all global locations • Provided findings with gap analysis, and mitigation plans • Lead leadership engagement, awareness, and commitment
Results	<ul style="list-style-type: none"> • Internal audit findings were resolved and their management systems were returned to compliance with all applicable standards • Registrar’s Certification revealed only very minor findings • The organization obtained ISO 9001, 14001, & 18001 certification
Boxley Group Competency	<ul style="list-style-type: none"> • ISO 9001, ISO 14001, and OHSAS 18001 Management System Expertise • Change Management
